

## **Practice Preventative Illness with Fortizel By Normalizing Cell Function**

Prevention is always better than cure because relief from a disorder may leave behind harmful effects on our body, but by preventing diseases from occurring, the whole body stays fit and normal. To optimize our body's performance, a miraculous medicinal compound called Fortizel® is available.

### **Let's explore what Fortizel® is:**

Fortizel® is built with Augmentsodine® Colostrum Extract. Colostrum Extract is an immensely powerful mixture of amazing nutrients that offers immune competence to humans. It is a very powerful illness-prevention substance undeniably superior to all other food supplements available in the market.

Fortizel® is the only substance containing Augmentsodine® which is 10-20 times stronger than traditional bovine Colostrum. Bovine Colostrum makes up about 99.99% of Colostrum produced by manufacturers for human consumption.

### **Fortizel® Improves and Normalize Your Metabolism:**

Sugar moves faster into the cells from the bloodstream when taking Fortizel®. This increases the performance of cells and offers a positive impact on the proper production of insulin in the body.

Fortizel® has many natural growth stimulators. These aid in quick recovery from illnesses and appropriate cell division. It enhances the immune system, helps in the integration of human gastro-intestinal tract, betters the functioning of the neuro-endocrine system and maintains the proper function of the muscles.

Adult-onset Type II Diabetes can be stopped by taking Fortizel® as well by facilitating transportation of increased amounts of sugar into the cells; maintaining the efficiency of the body's insulin usage.

Fortizel® is able to cure Type II Diabetes by diminishing the blood sugar levels. It also normalizes body cholesterol, triglycerides and ketosis levels. Fortizel® helps in healing wounds faster, in cases of both normal and Type II Diabetic patients.

Fortizel® is a great dietary supplement as well. The Colostrum Extract stimulates and enhances the metabolic process of carbohydrate burning in body cells. It revitalizes the

mammalian cells and increases the effectiveness of the biochemical reactions. Fortizel® is key to increasing the resistance to pathogens and disease-generating organisms.

Fortizel® is an overwhelmingly accepted magical substance that can be considered **a** proactive measure to stay fit and healthy.
